Statement regarding Conflict Minerals Policy

Boehlerit is among the global leaders in the production of carbide materials for tools for metal, wood and plastics machining and has earned its reputation as pioneering developer since 1932.

Boehlerit is committed to ensure best practice with respect to safety, health, environment and ethics at all stages of its supply and production chain.

Boehlerit denunciate all activities in the sourcing sector connected to illegal or unlawful exploitation of commodities and that directly or indirectly finances or benefits armed groups in conflict areas.

Boehlerit fully supports the activities of the Organisation for Economic Cooperation and Development (OECD) to avoid the use of raw materials which finance armed groups in the Democratic Republic of Congo (DRC) or neighbouring countries.

Boehlerit is supporting its customer to comply with the issued SEC rules concerning section 1502 of the Dodd-Frank Act.

Boehlerit sources its raw material (Tungsten, Tantal, Cobalt) exclusively from suppliers who correspond to the above mentioned rules.

Best Regards
