Boehlerit – your partner for carbide rods and special solutions

Kapfenberg / Styria, 08/01/2019

Boehlerit is a development pioneer and European premium manufacturer for carbide cutting materials, with development know-how based on a close relationship with the steel industry. This leads to high-end variety solutions for true-running full carbide tools covering a multitude of applications. The carbide manufacturer from Kapfenberg has many years of experience in the field of carbide blanks and semi-finished products for precision tool manufacturers, resulting in a multitude of special material varieties for different applications.

In addition to the standard, in-stock range of rods, Boehlerit also offers special solutions in the field of pre-formed blanks for milling and drilling tools.

In order to meet the market requirements in this field and withstand the increasing pressure as regards the reduction of delivery times while maintaining consistent quality, Boehlerit has developed the unique Rapid Line. Thanks to this high-speed production, Boehlerit is able to supply its customers with precision tool blanks in the varieties HB30F and HB10F with a guaranteed delivery time of 15 working days.

Press release

The company

Boehlerit, headquartered in the Austrian town of Kapfenberg, sets global standards with carbides and tools for the processing of metal, wood, plastics and composites. With cutting materials, semi-finished products, precision tools and tool systems for milling, turning, drilling and forming, Boehlerit ensures process safety and efficiency on a global scale. The company's extensive product portfolio includes highly specialised tools for the machining of crankshafts as well as for the mining industry, for bar peeling, tube and sheet metal processing and heavy-duty machining. The Boehlerit product range also features carbides for construction components and wear protection. When it comes to coating technology, Boehlerit holds a global monopoly, ranging from the first-ever nano-CVD bonding layer to the hardest diamond layer worldwide. With its many years' experience in metallurgy, coating technology and state-of-the-art press technology, Boehlerit is a highly competent development partner for toolmakers.
